

Rainbow Ducky

Whiskers Dogged a wolf, and Sockness Stinkiness a monster, are walking in the forest on a sunny day. They find Furry Tabbecca a cat, and Drooly Brah a dog fighting over a rainbow colored, medium sized rubber ducky toy.

Whiskers and Sockness try to get Furry and Drooly to stop fighting. Sockness used his magical socks to fly over the forest and to a shop in the nearby town, Townsberg. Sockness went into a shop named Flippy Gizmos. Sockness took out his purse he kept in his belly.

The salesperson named Dot showed Sockness a gizmo called the Multiplier Gizmo. Dot showed him how it works by making a second Dot. Sockness paid \$1 for the Multiplier Gizmo. Sockness leaves the store, puts on his goggles and flies with his magical socks back to where Whiskers, Furry, and Drooly are in the forest.

Then Whiskers and Sockness use the Multiplier Gizmo to make another rainbow colored, medium sized rubber ducky toy.

Finally, Furry and Drooly made up. Everyone told Sockness they were glad Sockness is such a good friend. Sockness then flew everyone home.
